# Find health services quickly on our free phone app

'Health and Care Oxfordshire' app shows you the best place to get help when you are ill, injured or need treatment.

You can find your nearest GP practice, minor injury and first aid unit, sexual health clinic, pharmacist and A&E department on the app quickly.

The app uses digital maps making it easy for you to find these services in Oxfordshire.

If you are eligible for adult social care the app signposts you to your nearest support.

You can even book a GP appointment, order a repeat prescription and view your medical records via the app.
